Active Prenatal Flow: Our prenatal program balances exercise and relaxation, so you'll feel cleansed and revitalized. Come together with active moms and moms-to-be, and create a community of women to share with the rigors and joys of pregnancy, mysteries of motherhood, and love of yoga.

Flow Down: Flow Down is power vinyasa, slowed down. We'll take our time building up a standing series, generating good heat and flow, and then take it to the floor. Expect long, strong holds and deep stretching. A perfect change-of-pace.

Foam Rolling, Mobility, and Movement: Join Dr. Lance for an hour of recovery-based mobility and movement work. With just a simple foam roller and lacrosse ball, you can repair yourself, recover from intense activity, manage pain, and fix movement dysfunction. It's a perfect complement to any active person's regimen, and an easy way to manage aches and pains while speeding up your recovery time.

Foundations: This is a workshop-style class for beginners, or for anyone who's interested in refining their knowledge of postures and alignment, basic breath work and meditation. In these small classes you'll receive assistance as we move slowly through the foundational postures and ideas central to yoga.

Full Primary: This is a led class through the Primary Ashtanga sequence. Ashtanga is a physically demanding practice synchronizing breath with movement through a set series of progressive postures to build strength, flexibility, and stamina. This class is strong and quick-paced, and not recommended for beginners.

Gentle: For when you just want to take it easy. This class is also recommended for students with injuries, special conditions, or mobility or strength issues. Chairs are available.

Half Primary: Be led through an abridged version of Ashtanga's Primary Series. This practice combines deep, audible nostril breathing (ujjayi), bandhas (internal energy locks) and drishti (visual focal points) in specific sequences of asanas linked by breath.

Hatha / Hot Hatha: In Hatha we move more slowly, building heat through balancing,

deliberate action, and long holds, rather than through the constant movement of vinyasa. This is an all-levels classes suitable for most healthy beginners, though the hot version is considerably more demanding.

Hot Flow: This is power vinyasa with the heat on. In hot flow, you get rode hard and put away wet. This class is sweaty, challenging, and never the same twice.

Hot 50/50 and 50/50 (Power/Yin): The 50/50 starts strong, with Suns and standing postures. For the second half, we hit the mat for Yin-style deep stretching. Long holds promote flexibility and increased range of motion. Your patience will be challenged and rewarded!

Mysore: Experience Ashtanga in the traditional method, and advance your asana practice. In a Mysore-style class, students move through the Primary Series at their own pace, under the close supervision of a teacher. Our Mysore Program has its own pricing options, and is not part of the regular unlimited membership.

Power Flow / Power Hour: The power flow style came from the Ashtanga tradition. Vigorous and creative standing sequences may move quickly or employ long holds. Build strength, range-of-motion, and comfort in your own skin. This class is generally not recommended for beginners or those with special conditions, but all are welcome.

Meditation / Restorative Meditation: A mix of restorative poses, breath work, and entry-level meditation practice. Join us in this ancient discipline to cultivate calm, insight, and happiness.

Rocket: Rocket is moderately-paced and prop-friendly, with many opportunities for variations, modifications, and inversions. Surya Namaskar A and B are followed by some 66 postures and the traditional closing series. Dristhi, Bandha, and Mantra are incorporated, and Sanskrit count is used for pace. All levels are welcome.

Soul Flow: Expect a little philosophy while you sweat. Soul Flow is a moderate, approachable flow class with a sweet Yin ending and opportunities to emotionally connect throughout. Think of it as yoga therapy for the spirit.

Totally Restorative: A deeply relaxing practice for everybody. We'll use bolsters, blankets, blocks, and straps to fully support you in each posture. Classes may feature guided meditation, pranayama, or anatomical focus. Reduce stress and enjoy good health.

Yin (Deep Stretch): Yin yoga targets the deep, dense connective tissues of the hips, pelvis and lower spine, and the web of fascia that runs throughout the entire body. Most yin postures are floor-based and held for a long period of time. Do not confuse yin yoga with restorative: this class is challenging, mentally and physically. Come see for yourself how yin yoga can complement your regular practice, increase your mobility, and deepen your capacity for relaxation.
